1. Message of the Organising Committee

Dear Friends of University Sport

Austria is very grateful for having the opportunity to organize the Innsbruck 2022 FISU World University Championship Sport Climbing from 14th June 2022 to 17th June 2022.

On this occasion, we are glad to mention the fruitful and professional cooperation in the organizing committee and we have to give grateful thanks to the University of Innsbruck and Austria Climbing.

We are busy with the preparations with joy and zeal and encourage all friends of Sport Climbing in the international family of University Sport to consider coming to Innsbruck/Austria for this event to meet friends who join your ambition.

Looking forward to four days of thrilling competitions, we are in confident hope for bright and shiny days in Innsbruck.

A hearty welcome to our guests from all over the world
Hemma Angerer
Head of OC and Acting President Unisport Austria

2. Innsbruck - the urban climbing city in the heart of the Alps

Whether it is alpine climbing with incredible views, exciting ice climbs, or a first-class climbing experience in the new climbing center - Innsbruck and its surrounding villages have a lot to offer for climbers, beginners and pros alike. The best opportunity for training waits at the Kletterzentrum Innsbruck, a state-of-the-art indoor and outdoor climbing facility for both the climbing stars, youngsters and leisure climbers.

For years, the "climbing city" Innsbruck has been a great stop of the IFSC Bouldering World Cups series. After the Youth World Championships in 2017 and the IFSC Climbing World Championships in 2018 we are delighted to host another major event, the Innsbruck 2022 FISU World University Championship Sport Climbing.

Innsbruck, the capital of Tyrol, offers a special mixture of urban flair and impressive nature thanks to its geographical location. The city is situated in the middle of the Alps and attracts its inhabitants and students with a breath-taking panorama and a wide range of different activities. Innsbruck is where city and nature as well as tradition and modernity meet. The city's special old town flair and famous sights are only a breath away from your next hike or bike tour, ski area or winter hiking experience.

The University of Innsbruck's central location on the north-south route at the heart of the Alps makes it a particularly attractive institution for the 30,000 students and 5,000 employees. The University of Innsbruck is the largest and most important research and educational institution in western Austria. The University Sport Institute Innsbruck is available to students as a service facility of the University of Innsbruck for sports activities and competitions and offers about 1,000 sports courses per academic year.

3. Competition Venue

All competitions (Speed, Lead & Boulder) for the Innsbruck 2022 FISU World University Championship Sport Climbing will take place at the Kletterzentrum Innsbruck in Austria on the outdoor-walls and an additional “mobile” Bouldering wall.

The "KI", Kletterzentrum Innsbruck, opened its doors in May 2017, and it is one of the world's largest and most modern climbing venues. It sets new standards in terms of size, quality, and architecture. The Kletterzentrum Innsbruck will break new ground when it comes to creating synergies between recreational sports and competitive sports. For everyone, hobby- and professional climbers alike, there are 5,700 m² of climbable surface: 3,000 m² for indoor lead climbing, 1,200 m² for bouldering and 1,500 m² for outdoor climbing. The “KI” offers everything a climber’s heart could possibly desire.

A detailed venue map (dining area, accreditation, press center,...) is going to be included in the Event Booklet which you receive shortly before the event.

4. Organisers

Several institutions are involved in the organisation of the Innsbruck 2022 FISU World University Championship Sport Climbing:

You can get to Innsbruck by car, airplane or train. The official arrival points in Innsbruck are the **Airport Innsbruck** and the **Main Station Innsbruck**, where you will be welcomed by our Volunteers. As soon as you arrive there, your transport and other services are arranged by the Organising Committee. Travel to and from those arrival points has to be arranged independently.

Transport in Innsbruck

According to the arrival and departure schedule and your respective accommodation we are going to arrange transportation from/to the airport or train station to the accommodation either by a special shuttle-bus or by public transport. The same applies to travelling between the competition venue and accommodation.

Free public transport in Innsbruck

All team members with a valid accreditation to the Innsbruck 2022 FISU World University Championship Sport Climbing will be able to use public transport in Innsbruck for free. Because public transport is well-developed it is easy to get from the accommodation to the competition venue by bus. You will be able to find a detailed bus schedule specific to your team's accommodation in the next bulletin.

15. Travel Itineraries

The detailed planning process for accommodation and transport is hugely dependent on the delegation's travel itineraries. In general, the travel details are submitted during the Individual Entry at the Online Accreditation System: <https://accreditation.fisu.net/Pages/Home.aspx>.
